

MUSIC IN THE PARK

<p>Andy Hart -</p>	<p>has been singing since his childhood - in choirs, bands and to anyone who would listen. Whilst singing with the rock band Solid Silver Andy discovered opera and has been perfecting his lyric tenor voice ever since. As well as appearing in full operas Andy sings at corporate events, gala dinners, weddings and concerts throughout the UK and Europe. Andy's largest audience was 8 million on the live semi-finals of Britain's Got Talent! Andy runs The Music Works, a musical school teaching all instruments, bands and of course singing, to musicians of all ages and abilities.</p>
<p>Viki Hart -</p>	<p>earned a BMus(Hons) from Lancaster University majoring in performance (voice and violin), technology and conducting and was awarded the Director of Music's prize for her final vocal recital after which she worked for the ENO as a vocal amineateur. Viki gained an Advanced Postgraduate Vocal Diploma from Trinity College of Music. While at Trinity she earned a place on the Royal Opera House, Covent Garden mentoring scheme.</p>
<p>Jack Howells-Davis -</p>	<p>has performed in many productions with Surrey Youth Music Theatre taking lead parts in Oliver!, Joseph and Grease. Jack sings bass in the Music Works a cappella group and is also in a band with his best friend Mattie. Together they won Battle of the Bands 2018 and went on to perform at Haslemere Fringe Festival and record one of their original songs at Metropolis Studios in London. Jack hopes that in the future his desire and determination will land him a spot in the West End.</p>
<p>Lily Trace -</p>	<p>lives near Godalming and has been singing at the Music Works for five years. She has been involved in school productions where she performed on stage. Lily has achieved a grade 6 singing exam, which she passed with a merit and continues to work on further grades. As well as singing covers she writes many of her own songs which lets her express her creativity and feelings. Lily is a young individual who aspires to grow and continue her vocal career.</p>
<p>Tracey Keightley -</p>	<p>started on piano and guitar at a very young age. She has an associate degree from the London College of Music and regularly composes and arranges music for choirs. Always a keen choral singer she has performed in a number of specially commissioned choral pieces by Karl Jenkins and Brian Kay. She joined Kate and Andy as the third member of the Voices@TheMusicWorksteam in 2011.</p>

Voices Choirs -	is the singing group section of The Music Works music school. Founded in 2011 for a group of parents at a local school Voices has grown to 4 adult choirs, 2 children and teen choirs. All are welcome - it doesn't matter if you think you can sing or not, the emphasis is on the feel-good and health aspects of singing. The choirs perform regularly at care homes, hospitals and professional concerts. Their favourite charity is the Teenage and Young Adult Cancer Unit at the Royal Surrey Hospital, since Voices has many teenagers and young people in its ranks.
Jess Bartlett -	has been performing with the Music Works from the age of 7, in choirs, bands and as a solo artist. She thoroughly enjoys singing and performing and she has been in many productions and she sometimes busks in the local area. In 2017 she produced a cover EP for The Passage, a charity that helps homeless people get off the streets and she raised just under £1,000 with 100% of the profits donated to the charity. Performing with the Music Works has given her the confidence to connect with the audience and she really enjoys it.
The Music Works -	opened in 2012 with the aim of bringing joy through music. As always the entire Music Works team give their time for free to make these events happen. We all believe that music is a priceless gift and every child should have the opportunity to make music. The UK has delivered some of the greatest musicians in the history of popular music and this started at school. We have to ensure this continues, hence every penny of profit we make goes to local charities and to fund music facilities and lessons in our schools.
